EDUCATION AND TRAINING
1981 - 1983
Ph.D in Physics

„Al. I. Cuza” University Iași, Faculty of Physics

Competences acquired:

Analysis and synthesis capacity, based on the use of scientific methods and rigorous theoretical information resources

Individual skills and team work, planning work and time management

Ability to design and to carry out experiments and innovations

1975 - 1980
Graduate in Physics

„Al. I. Cuza” University Iași, Faculty of Physics

Competences acquired:

Analysis and synthesis capacity, based on the use of scientific methods and rigorous theoretical information resources

PERSONAL SKILLS
Mother tongue

Romanian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	B1	B2	B1	B1	B2
French	A1	A1	A1	A1	A1

Communication skills

Very good skills of interpersonal communication, experience gained from teaching

Ability to write texts for a variety of purposes; monitoring the writing process, from "draft" to "good for print"

Ability to formulate own arguments in a convincing manner and take into account other points of view expressed both verbally and in writing

Organizational/management skills

Ability to develop and implement a project

Ability to work cooperatively and flexibly within a team

Ability to respond positively to changes

Ability to adapt to unforeseen circumstances and to prioritize tasks to meet deadlines

Ability to work under pressure and to find solutions to the challenges arising

Ability to organize and coordinate working groups, the experience gained in teaching and project coordinator

Computer skills

Operating knowledge in Microsoft Office (Word)

ADDITIONAL INFORMATION
**Publications
(in ISI journals)**
relevant to the project topic
More than 200 articles published in ISI journals, from which, relevant for the project topic, we mention:

1. **M. Agop**, I. C. Botez, *Theoretical Approach of Differentiable-Non-Differentiable Scale Transition in Nanostructures*, J. Comput. Theor. Nanosci., 12, 9, 2140-2151, 2015

Award

- Doctor Honoris Causa of the University "Vasile Alecsandri" of Bacau (2013)
- Gold Medal, Brussels Eureka, for the invention "Materiaux heterojonctionneles semiconductereous obtenus seem coprecipitation sequentieles", Sandu I., T. Balan, **Agop M.**, E. ant, Anghel I. (1994)
- "Honorable Mention" awarded by the American Society Gravity Research Foundation, Massachusetts, Essays on Gravitation (1986)

Projects

1. Computational methods of modeling and design of high-performance materials nanomagnetic, CEEX 76-5/2006 / MEC (director project)
2. Modeling physical and chemical processes in developing a new, greenmethods for obtaining titanium, CNCSIS 78GR/2006/ MEC (director project)
3. Development of new concepts, techniques and skills based methods synergistic of noninvasive assessment of advanced new materials, micro and nanostructured, CEEX-CALIST 6110/ 2005/ MEC (director project)
4. Discharge method and theory of fluctuations corona. Application at lower specific energy ozone generators, RELANSIN 1916P/2004/MEC (director project)
5. Advanced reconstruction of form and determination of physical-mechanical objects in 2D and 3D multilayer composite materials using ultrasound techniques; applications, CERES-2661P /2003 / MEC (director project)
6. Software package based on genetic algorithms and neural networks with applications in physics ceramic superconductors, CERES-57/2002/MEC (director project)

Visiting Professor

Athens University, Greece (march-april 2000, september-october 2001, october - november 2003, february 2008)
Lille University, France (May 2008, May 2009)
